ABOUT US

SHONARI PENTA ABADI, also known as "Shonari" is an Indonesian Enterprise with a specialization as a mining contractor company. We are designated to fulfill the expectations of mining industries that need a professional mining services company that could provide integrated mining services to achieve the target of productivity through the implementation of Good Mining practices and systematic services. We obtain our mining service permit (IUJP) from Ministry of Investment/ Chief of Investment Board on behalf of Ministry of Energy and Mineral Resources in May, 30, 2023

With Our slogan "TRUST IS OUR GREATEST ASSET" , we intend to maintain and treat all of the trust from all parties as our spirit and motivation to deliver the best services for the satisfaction of all parties.

Supported by a highly skilled professional miners team with a long time of experience in the mining operation projects in their respective fields, The Company operated and emphasized a good environment in the organization to create solidity and present the best result for clients needs, especially its mining production target achievement.

In the Shonari, we create a high standard for our work by developing system information in our operational activities, such as the implementation of an ERP system, a fleet management system, a data center for mining production, an equipment maintenance system, a mine plan, human resources, etc. We developed the information systems by our internal programmer team combined with external software to manage and evaluate our work in a systematic way because we believe that problems occurring in the mining operations stem from a lack of time for delivery and acquisition of data, which impacts the inefficiency and late evaluation of running projects overall. With an integrated data system, we would minimize its problems and eventually deliver the best solution and result for our clients and stakeholders.

TENTANG KAMI

SHONARI PENTA ABADI, juga dikenal sebagai "Shonari" adalah Perusahaan Indonesia dengan spesialisasi sebagai perusahaan kontraktor pertambangan. Kami didirikan untuk memenuhi harapan industri pertambangan yang membutuhkan perusahaan jasa pertambangan profesional yang dapat menyediakan layanan pertambangan terintegrasi untuk mencapai target produksi melalui penerapan praktik penambangan yang baik dan layanan yang sistematis. Kami memperoleh Ijin Usaha Jasa Pertambangan (IUJP) dari Menteri Investasi/Kepala BKPM atas nama Menteri Energi dan Sumber Daya Mineral Republik Indonesia pada 30 Mei 2023

Dengan slogan kami "TRUST IS OUR GREATEST ASSET" , kami berkeinginan untuk menjaga dan memperlakukan semua kepercayaan dari semua pihak sebagai semangat dan motivasi kami untuk memberikan layanan terbaik untuk kepuasan semua pihak.

Didukung oleh tim profesional yang sangat terampil dengan pengalaman panjang dalam proyek operasi penambangan di bidangnya masing-masing, Perseroan mengoperasikan dan menekankan lingkungan yang baik dalam organisasi untuk menciptakan soliditas dan menghadirkan hasil terbaik untuk kebutuhan klien, terutama pencapaian target produksi.

Di Shonari, kami menciptakan standar tinggi dalam menjalankan aktivitas pekerjaan dengan mengembangkan sistem informasi dalam kegiatan operasional kami, seperti penerapan sistem ERP, Fleet Management Ssytem, data center produksi, maintenance system, mine design, sumber daya manusia, dll. Kami mengembangkan sistem informasi yang dirancang oleh tim programmer internal kami dengan dikombinasikan software eksternal untuk pengelolaan dan evaluasi pekerjaan secara sistematis. Karena kami percaya bahwa masalah yang terjadi dalam operasi penambangan seringkali terjadi dikarenakan permasalahan update dan validitas data operasional penambangan, yang berdampak pada keterlambatan evaluasi proyek yang berjalan secara keseluruhan. Dengan sistem data terintegrasi, kami akan meminimalkan masalah tersebut dan memberikan solusi serta hasil terbaik untuk klien dan pemangku kepentingan.

VISION & MISSION

VISI & MISI

Vision

To be a leading, trusted and reputable mining service provider company that implement integrated information management system for transparency, target accuracy and manageable operation into a sustainable growth

Mission

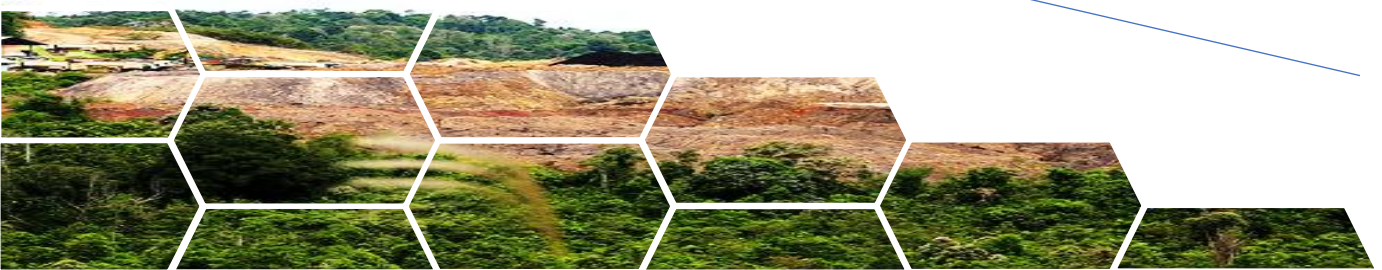

To provide a total and integrated mining service to client's and all of stakeholder's by implementation of Good Mining Practice to achieve a expected of target production

VISI

Menjadi perusahaan penyedia jasa pertambangan yang unggul, terpercaya dan bereputasi baik yang menerapkan sistem manajemen informasi yang terintegrasi untuk transparansi, keakuratan target, serta manajemen operasional yang terkelola dengan baik untuk pertumbuhan yang berkelanjutan

MISI

Menyediakan jasa pertambangan secara menyeluruh kepada para pengguna jasa serta para pihak terkait dengan menerapkan Prinsip Pertambangan Yang Baik/ *Good Mining Practice* demi mencapai target produksi yang diharapkan

STRUCTURE ORGANIZATION | STRUKTUR ORGANISASI

OUR SERVICES

As a mining services provider company we offers mining services across all stages of production

1. PREPARATION AND CONSTRUCTION
2. OVERBURDEN REMOVAL
3. COAL GETTING
4. COAL HAULING
5. MINING OPERATION MANAGEMENT AND MANPOWER SERVICES
6. INTEGRATED MINING SERVICES

LAYANAN KAMI

Sebagai perusahaan penyedia jasa pertambangan, kami menawarkan jasa penambangan di semua tahapan produksi penambangan

1. PERSIAPAN DAN KONSTRUKSI SITE
2. PENGGLIAN DAN PEMINDAHAN TANAH PENUTUP (OVERBURDEN)
3. PENGGALIAN BATUBARA DAN MINERAL
4. PENGANGKUTAN BATUBARA DAN MINERAL
5. MANGEMEN OPERASI PENAMBANGAN TERMASUK PENYEDIAAN TENAGA KERJA
6. OPERASI PENAMBANGAN SECARA MENYELURUH

SCOPE OF SERVICES

As a mining services provider company we offers mining services across all stages of production and expansion from front to end operation of stage. Supported by our mining professional and skilled team, our services including:

Engineering and business plan services

Desk study and business consultancy including mining design, Life of Mine (LOM) in a long term and short term period, budgeting and business plan, market overview, operational plan, geological review and assessment, legal and permit and others non technical issues arrangement

Mining operator services

Our scope of services in this scheme are providing all of manpower team, system and management. Client's would provide equipment and fuel and we would manage front to end mining to achieve certain number of production targeted by client's

Mining Contractor services

In this scheme we provide all Operational mining activities including Site preparation and infrastructure construction overburden removal and waste management, production and mining materials hauling. We would in charges and responsible for providing engineering planning, equipment, fuel, manpower.

(Scope of work in the contract could be integrated or separately)

Tailor made and flexible contract scheme regarding clients request

LINGKUP JASA

Sebagai perusahaan penyedia jasa pertambangan kami menawarkan jasa pertambangan di semua tahapan produksi dari tahap awal sampai akhir operasi dengan didukung oleh tim pertambangan yang profesional dan terampil, meliputi

Layanan perencanaan bisnis penambangan.

Desk study dan konsultasi bisnis termasuk perencanaan desain tambang sesuai Umur Tambang (LOM) jangka panjang dan jangka pendek, penganggaran biaya dan perencanaan bisnis, perencanaan operasional, tinjauan geologi, permasalahan hukum dan perizinan dan pengaturan masalah non teknis lainnya

Layanan operator penambangan.

Dalam skema ini kami akan mengelola kegiatan operasi penambangan dari awal hingga akhir dengan menggunakan tim, sistem, dan manajemen tenaga kerja kami. Klien menyediakan alat berat utama (termasuk unit support) dan bahan bakar.

Layanan kontraktor pertambangan

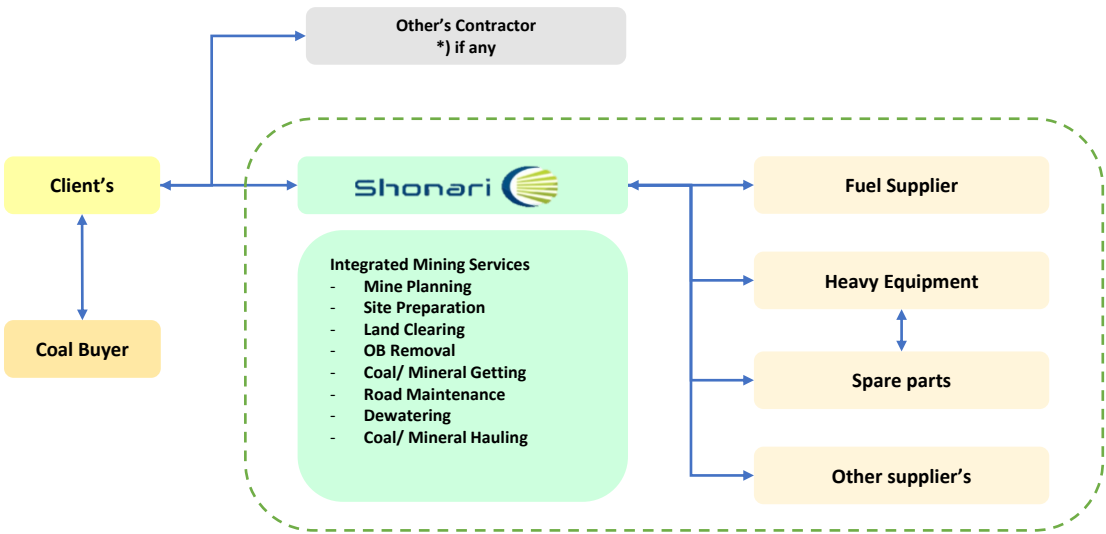

Mencakup pelaksanaan kegiatan operasional pertambangan dimulai dari penyiapan lokasi dan infrastruktur, pengupasan dan pemindahan tanah penutup, pengelolaan limbah, produksi dan pengangkutan, termasuk engineering, alat berat, bahan bakar dan tenaga kerja.

(Lingkup pekerjaan dalam kontrak dapat terintegrasi atau terpisah)

Skema kontrak yang dibuat khusus & fleksibel sesuai kebutuhan klien

MANAGEMENT & TEAM | MANAJEMEN & TEAM AHLI

Mr Indra S Prasetyo, is Co Founder and President Director of the company since March 2023. He has experiences in the mining and energy business especially in the coal mining and power plant business with area expertise in the front end development of the project, operation management and financial roles including project finance and budget control. Prior to set up the company he has served as a GM Finance and Accounting PT MAA Life Assurance (2008-2010), VP Institutional Business PT Asia Kapitalindo Securities, Tbk (2010-2012), President Director of PT Tempirai Energy Resources a coal mining concession holder (IUP) located in Musi Banyuasin, South Sumatera (2012-2016), Managing Director of PT Mega Power Mandiri an IPP Hydro Electric Power Plant (2016-2021). He holds a Bachelor of Economic Science from UPN "Veteran" Yogyakarta in 2002

Bapak Indra S Prasetyo, adalah Co Founder dan Presiden Direktur perusahaan sejak Maret 2023. Beliau memiliki pengalaman di bisnis pertambangan dan energi khususnya di bisnis pertambangan batubara dan pembangkit listrik dengan keahlian di bidang pengembangan bisnis, manajemen operasi dan keuangan termasuk project finance dan budget control. Sebelum mendirikan perusahaan beliau pernah menjabat sebagai GM Keuangan dan Akuntansi PT MAA Life Assurance (2008-2010), VP Institutional Business PT Asia Kapitalindo Securities, Tbk (2010-2012), Presiden Direktur PT Tempirai Energy Resources pertambangan batubara pemegang konsesi (IUP) berlokasi di Musi Banyuasin, Sumatera Selatan (2012-2016), Managing Director PT Mega Power Mandiri an IPP Pembangkit Listrik Tenaga Air (2016-2021). Meraih gelar Sarjana Ekonomi dari UPN "Veteran" Yogyakarta pada tahun 2002

Mr Deni A Setianegara, is Co Founder and Director of the company since March 2023. He holds a Bachelor of Law with major Banking, Corporate, Finance and Securities Law from Sekolah Tinggi Hukum (STH) Bandung in 2003. He has experiences in the banking sector especially in Credit Risk Control when he joined in Directorate of Risk in Bank Permata, Tbk as a Senior Manager Credit Risk Control in 2008-2011. In the mining business he has an experiences in the integrated front end coal mining production business. He joined in Prima Multi Artha Group (PMA) and served as General Manager and Director in the PMA Group Subsidiaries since 2011-2016. He also served Head of Development Division in PT Anindya Wira Consult in 2016-2017 and in 2017-2019 he lead an exploration activities for manganese mineral under Peak Everest Mining, Lda, located in Timor Leste. Currently he also still active for assisting development of nickel ore trading company in Sulawesi and Maluku.

Bapak Deny A Setianegara, adalah Co Founder dan Direktur perusahaan sejak Maret 2023. Berlatang belakang Pendidikan Sarjana Hukum dengan konsentrasi Hukum Perbankan, Korporasi, Finance dan Sekuritas dari Sekolah Tinggi Hukum (STH) Bandung pada 2003. Beliau memiliki pengalaman dalam bidang perbankan khususnya Pengendalian Resiko Kredit pada saat bergabung dalam Direktorat Resiko pada Bank Permata, Tbk sebagai Senior Manager Pengendalian Resiko Kredit 2008-2011. Dalam bidang pertambangan beliau memiliki pengalaman dalam bisnis terintegrasi dalam produksi batubara dan hulu sampai hilir. Pernah tergabung di Prima Multi Artha (PMA) Group, menjabat sebagai General Manager di Group Usaha dan Direktur di beberapa Group Usaha PMA dan 2011-2016. Dan beliau juga pernah menjabat selaku Kepala Divisi Pengembangan di PT Anindya Wiraputra Consult pada 2016-2017. Pada tahun 2017-2019 beliau memimpin kegiatan eksplorasi mineral mangan di Timor Leste di bawah bendera Peak Everest Mining, Lda. Saat ini beliau juga masih aktif dalam pengembangan perusahaan trading nikel di Sulawesi dan Maluku

Mr Aep M Alamsyah, is Head Division of Operation of the company since June 2023. He has experiences in the coal mining operation with more than 20 years experiences in various coal mining projects. He has experience to followed on the training program for underground coal mine development design practice course on coal mining project in Ikesima, Japan in 2007. He started his career since he graduated from mining faculty in 2002 as Staff Engineer PT Sewun Indo Konsultan (2002-2004). Dewatering Engineer (2004-2005), Planning and Production Engineer in PT SMK (Coal Contractor) job site Tanjung Enim, (2005) Mine Operation Sec Head in PT SKB Job Site Binauang (2006-2008), PM in PT SBS Job Site PT PKN Bulungan (2011-2012), PM in PT Karingau Indojaya job site PT BDMS Malinau (2012-2014), Head of Engineering PT Alam Esa Persada Mining Consultant for mining road and bridge construction (2014-2016), PM PT CSMU Job Site PT AMNK Malinau (2017-2018), PM PT Insema Sunly Engineering, Soil Improvement Contractor (2018-2021), Deputy GM PT PSI Job Site Lemo (2022). He holds a Bachelor of Mining Engineering from UPN "Veteran" Yogyakarta in 2002

Bapak Aep M Alamsyah, adalah Kepala Divisi Operasi perusahaan sejak Juni 2023. Beliau memiliki pengalaman dalam operasi pertambangan batubara dengan pengalaman lebih dari 20 tahun di berbagai proyek pertambangan batubara. Memiliki pengalaman mengikuti program pelatihan kursus praktek desain pengembangan tambang batubara bawah tanah pada proyek pertambangan batubara di Ikesima, Jepang pada tahun 2007. Memulai karir sejak lulus dari fakultas pertambangan pada tahun 2002 sebagai Staff Engineer PT Sewun Indo Konsultan (2002- 2004). Dewatering Engineer (2004-2005), Engineer Perencanaan dan Produksi di job site PT SMK (Kontraktor Batubara) Tanjung Enim, (2005) Kepala Sec Operasi Tambang di Job Site PT SKB Binauang (2006-2008), PM di Job Site PT SBS PT PKN Bulungan (2011-2012), PM di job site PT Karingau Indojaya PT BDMS Malinau (2012-2014), Head of Engineering PT Alam Esa Persada Mining Konsultan konstruksi jalan dan jembatan tambang (2014-2016), Job Site PM PT CSMU PT AMNK Malinau (2017-2018), PM PT Insema Sunly Engineering, Soil Improvement Contractor (2018-2021), Deputy GM PT PSI Job Site Lemo (2022). Meraih gelar Sarjana Teknik Pertambangan dari UPN "Veteran" Yogyakarta pada tahun 2002

Mr Agung Purnomo, is Head Division of Engineering and Technic of the company since June 2023. He is a geologist with more than 20 years experiences in the coal mining operation in various coal mining projects since a junior geologist level until Chief of Mining Technic (KTT) level. He holds a certification of Frontline Operational Supervisor (POP) from ESDM in 2012. He mastered in Minescape Stratmodel software, Log Plot, Mine Modelling, and Exploration works. He started his career since he graduated from Geology Technic Mineral Faculty in 2006. Prior to join the company he is Senior Geologist in PT Reka Indo Internusa a Mining Exploration Consultant (2008-2010), Exploration Manager in PT Astaka Dodol a Coal Concession Holder (IUP) located in Musi Banyuasin, South Sumatera (2010-2013), Chief of Technical Mining in PT Tempirai Energy Resources located in Musi Banyuasin, South Sumatera (2013-2017), Geologist and Mining Project Advisor at GeoEnergy, Inc. Pte, Ltd & American International Ventures (AIVN) USA a Mining Asset Management and Gold Mining located in Mexico. Currently he also served as a President Director in PT Cosmix Asia an integrated mining services for nickel ore processing . He holds a Bachelor of Geology Engineering from UPN "Veteran" Yogyakarta in 2006

Bapak Agung Purnomo, adalah Kepala Divisi Teknik dan Teknik perusahaan sejak Juni 2023. Beliau adalah seorang ahli geologi dengan pengalaman lebih dari 20 tahun dalam operasi penambangan batubara di berbagai proyek penambangan batubara sejak tingkat junior geologist hingga Kepala Teknik Pertambangan (KTT).) tingkat. Ia memegang sertifikasi Pengawas Operasional Pertama (POP) dari ESDM pada tahun 2012. Ia menguasai software Minescape Stratmodel, Log Plot, Mine Modelling, dan pekerjaan Eksplorasi. Memulai karir sejak lulus dari Fakultas Teknik Mineral Fakultas Geologi pada tahun 2006. Sebelum bergabung dengan perusahaan, beliau adalah Ahli Geologi Senior di PT Reka Indo Internusa Konsultan Eksplorasi Pertambangan (2008-2010), Manajer Eksplorasi di PT Astaka Dodol Pemegang Kuasa Perusahaan Batubara (IUP) berlokasi di Musi Banyuasin, Sumatera Selatan (2010-2013), Kepala Teknik Pertambangan di PT Tempirai Energy Resources berlokasi di Musi Banyuasin, Sumatera Selatan (2013-2017), Geologist and Mining Project Advisor di GeoEnergy, Inc. Pte, Ltd & American International Ventures (AIVN) USA, Manajemen Aset Pertambangan dan Pertambangan Emas yang berlokasi di Meksiko. Saat ini beliau juga menjabat sebagai Presiden Direktur di PT Cosmix Asia sebuah jasa pertambangan terpadu untuk pengolahan bijih nikel. Meraih gelar Sarjana Teknik Geologi dari UPN "Veteran" Yogyakarta pada tahun 2006

Mr Ali Imron, is Project Manager of the company since June 2023. He has a long experiences in the coal mining projects in Indonesia and he holds a certification of Middle Operational Supervisor (POM) from ESDM in 2021. He mastered in Surpac, Arcgis and Minescape Stratmodel software, mine plan design. He started his career since he graduated from faculty of Technic Mineral with major in Mining Technic in 2009. Prior to join the company he is a Mine Engineer in PT Berau Bara Energi (Atlas Resources Group) site Berau, Kaltim (2009-2010), Mine Operation Supervisor in PT Diva Kencana Borneo Site Melak, Kaltim (2010-2013), Mine Engineering Dept. Head PT Tempirai Energy Resources site Muba, Sumsel (2013-2016) Project Manager and First in Charges (PIO) PT DMIP coal mining contractor site PT Bencoolen Mining Bengkulu (2021-2022), KTT in PT Asia Buana Metalindo a Iron Ore Project in Lampung (2021-2023). He holds a Bachelor of Mining Engineering from UPN "Veteran" Yogyakarta in 2009

Bapak Ali Imron, adalah Manajer Proyek perusahaan sejak Juni 2023. Beliau memiliki pengalaman panjang dalam proyek pertambangan batubara di Indonesia dan beliau memegang sertifikasi Pengawas Operasional Madya (POM) dari ESDM pada tahun 2021. Beliau menguasai Surpac, Arcgis dan Perangkat lunak Minescape Stratmodel, desain rencana tambang. Memulai karir sejak lulus dari fakultas Teknik Mineral dengan jurusan Teknik Pertambangan pada tahun 2009. Sebelum bergabung dengan perusahaan, beliau adalah Mine Engineer di site PT Berau Bara Energi (Atlas Resources Group) Berau, Kaltim (2009-2010), Supervisor Operasi Tambang di PT Diva Kencana Borneo Site Melak, Kaltim (2010-2013), Mine Engineering Dept. Head site PT Tempirai Energy Resources site Muba, Sumsel (2013-2016) Project Manager dan Penanggung Jawab Operasi (PIO) PT DMIP site PT Bencoolen Mining Bengkulu (2021-2022), KTT di PT Asia Buana Metalindo Proyek Biji Besi di Lampung (2021-2023). Meraih gelar Sarjana Teknik Pertambangan dari UPN "Veteran" Yogyakarta pada tahun 2009

PROJECT | PROYEK

October 2023 – present

Single Rate Mining Operation project in Mining Concession (IUP) PT Jambi Resources located in Lebong Regency, Bengkulu Province (Stripping Ratio 1 : 16)

Scope of services :

- ❖ Preliminary Mining Operation :
 - Exploration and Geological Mapping (incl infill drilling, test pit and trenching)
 - Mine Engineering & Pit Design
 - Construction of Mining Infrastructure (mine road, bridge, and road maintenance)
- ❖ Mining Operation
 - Land Clearing
 - Overburden Removal incl. manage disposal (max. 1 km to disposal area)
 - Pit Dewatering
 - Coal Getting (incl. Cleaning and Quality Control of Coal Specification)
 - Coal hauling to ROM with distance $\pm$ 1 km)
- ❖ Coal Hauling from ROM to Port with $\pm$ 190 km using public road (incl. ROM and Stockpile management)

Fleet Operation

- 3 unit Excavator Liugong CLG933
- 2 unit Excavator Liugong 922E
- 2 unit Bulldozer Liugong B230
- 1 unit Motor Grader XCMG R135
- 6 unit DT Mercy Axor 2528
- 5 unit DT Hino
- Dewatering Pump DP2500-2 Cap 250m³/hrs

GALERY PROJECT | GALERI PROYEK

- Preliminary Mining Operation

- Mining Operation

- Hauling from ROM to Stockpile Activities
